

GOLF CLUB PUNTA ALA

- The Golf Club Punta Ala started its activity in the spring of 1964.
- Its course, of about 6.168mt, PAR 72 – twists with sweet waving on the land in the middle of the Maremman scrub which is composed by a deep evergreen vegetation of domestic and maritime pines, cork oaks, centuries-old holm oaks, lush oaks and albatross bushes. Each golf hole has a different difficulty which creates a golf course for every player need.
- The project of the 18 golf holes was realized by Giulio Cavalsani, following modern golf architectural standards and the greens, almost all of them undulating and large in size, were located at the most strategic points in the area available.

- The course is located in a scenic area with a view of the sea and has been ranked by a group of foreign journalists as the 5th most beautiful course in Europe in terms of both technical and scenic aspects. From every hole you can enjoy a panorama like few others in Europe: in front of you the sea and behind you the lush Mediterranean vegetation under a clear sky.
