

A person wearing a hat and riding a dark horse is seen from behind, moving through a lush green vineyard. The vines are in the foreground, and a dirt path leads into the distance. Several trees are scattered across the landscape under a clear sky. The entire scene is framed by a thin white border.

## AGRITURISMO IL GELSOMINO

# HISTORY

- Enjoy a unique experience in this historical holiday farm made of a past of traditions and genuine tastes.
- The Gelsomino holiday farm boasts a long-lasting history, started during the period of the reclamation of the swamp area near Grosseto around the 1920s.
- During those years sharecroppers' farms were built, whom were veterans of the First World War coming from the Venetian region with their families to work the Maremman land and for the reclamation of the swamp.

- The small farm of the family (which therefore boasts Venetian origins but has become typically Maremman) was built in Alberese. With the first renovation in 1995 it was transformed into a building suitable to host tourists visiting this beautiful region and later also the plantation of jasmines, after which the holiday farm is named as the Agriturismo il Gelsomino.
